

# Issue Committee Reports

Issue committees are committees that have been established or appointed for a particular *issue* as opposed to for a division or region within the USCA. Issue committee reports should be in a specific form. I would like them to include these 5 points.

The first thing is a reiteration of the issue. Another way of putting that is to restate the issue or question.

Second should be why the issue is or was asked. Why is this is an issue at all?

Third should be what the committee settled on, if they were able to settle.

Fourth should be what the reasons or rationale behind the committee's decision or recommendation are.

Fifth should be what, if any, were the dissenting opinions so the delegates will be able to see the other side of the issue.

All of this should be as succinct as possible. Please try to keep it to one page, use a form that is easy to read (use bullets, or an outline form, or something other than just a full page of text).
